

Research Excellence Framework 2021:

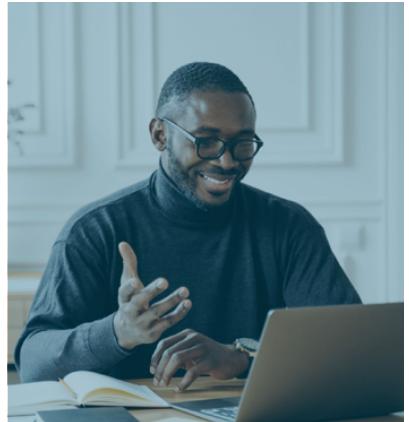

# **ANALYSIS OF RESULTS FOR BUSINESS & MANAGEMENT**

# INTRODUCTION

To help the sector understand the results, the Chartered ABS has undertaken an analysis of the data for Unit of Assessment 17: Business & Management. The results are ranked by institution according to the following measures:

- Overall Grade Point Average (GPA)
- Output GPA + Output 'Power' (GPA X volume of outputs per FTE staff submitted)
- Impact GPA
- Environment GPA
- Summary table enabling comparison of ranks by GPA across all assessment criteria
- Overall GPA by mission group affiliation

Each table shows the provider's quantity of staff in terms of Full-Time Equivalent and the percentage of eligible staff submitted, along with the proportion of each grade point they were awarded for their submissions. Each table is arranged by the provider's rank in REF 2021. For the tables which display the overall rankings, the REF 2021 rankings are presented alongside the same institution's rankings in REF 2014 for comparison. The Chartered ABS does not advocate any particular approach to analysing the data and our aim is to enable members to benchmark their performance and foster debate on the subject of research assessment in the UK, recognising the vital importance of research in UK business schools.

## BUSINESS AND MANAGEMENT UOA 17 - OVERALL GPA

The following table shows each provider's overall GPA, alongside its ranks both in this year's exercise and in REF 2014 for comparison. While the methodology between REF 2014 and REF 2021 may be too different to reasonably compare GPAs between exercises, a comparison of ranks remains prudent as it may give us an idea of how institutional performance relative to peers has changed alongside the shifting priorities of the higher education funding bodies.

## BUSINESS AND MANAGEMENT UOA 17 - OUTPUT 'POWER'

Outputs account for 60% of a provider's overall outcome (previously 65% for REF 2014) and are comprised of published or otherwise publicly available products of research in various forms.

To calculate 'volume' of outputs, we estimated the number of outputs each institution would have submitted to REF 2021. This is based on the total number of FTE staff and the total number of outputs submitted within the Unit of Assessment. This gave us a multiplier of 2.42, slightly short of the 2.5 output submissions required per FTE of staff submitted. Assuming that this shortfall was spread evenly throughout the UoA, we multiplied each provider's FTE staff submitted by 2.42 to arrive at a volume of submissions. This was then multiplied by the GPA of their submissions to arrive at their output 'Power', a number which communicates the strength of their body of outputs, taking into account both quality and quantity.

# BUSINESS AND MANAGEMENT UOA 17 - ENVIRONMENT GPA

Environment accounts for 15% of a provider's overall outcome. This element is aimed at assessing the "vitality" and "sustainability" of a HEI's research environment, and is based on a narrative submission alongside data on research income, research income in kind, and completed doctoral degrees.
